

# SWAKTM

Safety Data Sheet

According to the Hazardous Substances and New Organisms Act (1996) Date of Issue: 05/11/2019

Version: 1.0

# SECTION 1: IDENTIFICATION OF THE SUBSTANCE OR MIXTURE AND OF THE SUPPLIER

1.1. Product Name
Product Form: Mixture
Product Name: SWAK<sup>TM</sup>

**1.2.** Other Names Not available

1.3. Recommended Use

Anaerobic Pipe Thread Sealant.

1.4. Company Name, Address And Contact Details

Company

Swagelok Manufacturing Company, LLC 29495 F.A. Lennon Drive Solon, Ohio 44139 440-519-4000

www.swagelok.com

1.5. Emergency Phone Number

Emergency Number : INFOTRAC: (800) 535-5035

Distributor

Swagelok New Zealand 111c Kerwyn Avenue East Tamaki, Auckland 2013 New Zealand (09) 273 2720

#### **SECTION 2: HAZARDS IDENTIFICATION**

#### 2.1. Classification Of The Substance Or Mixture

**GHS-NZ classification** 

6.3A Skin corrosion/irritation, Category 2

6.4A Serious eye damage/eye irritation, Category 2A

# 2.2. GHS Label Elements, Including Precautionary Statements

**GHS-NZ Labeling** 

Hazard Pictograms (GHS-NZ)

Signal Word (GHS-NZ) : Warning

Hazard Statements (GHS-NZ) : H315 - Causes skin irritation.

H319 - Causes serious eye irritation.

Precautionary Statements (GHS-NZ) : P264 - Wash hands, forearms, and other exposed areas thoroughly after handling.

P280 - Wear protective gloves, protective clothing, and eye protection.

P302+P352 - IF ON SKIN: Wash with plenty of water.

P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses, if present and easy to do. Continue rinsing. P321 - Specific treatment (see section 4 on this SDS).

P332+P313 - If skin irritation occurs: Get medical advice/attention. P337+P313 - If eye irritation persists: Get medical advice/attention.

P501 - Dispose of contents/container in accordance with local, regional, national, and

international regulations.

#### 2.3. Other hazards which do not result in classification

Exposure may aggravate pre-existing eye, skin, or respiratory conditions.

#### 2.4. Unknown Acute Toxicity (GHS-NZ)

No data available

#### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

#### 3.1. Substance

Not applicable

05/11/2019 EN (English) 1/11

# 3.2. Mixture

# **SECTION 4: FIRST AID MEASURES**

# 4.1. Description of Necessary First-Aid Measures

**General:** Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

**Inhalation:** When symptoms occur: go into open air and ventilate suspected area. Obtain medical attention if breathing difficulty persists.

**Skin Contact:** Remove contaminated clothing. Obtain medical attention if irritation develops or persists. Immediately drench affected area with water for at least 15 minutes.

**Eye Contact:** Immediately rinse with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if irritation develops or persists.

Ingestion: Rinse mouth. Do NOT induce vomiting. Obtain medical attention.

#### 4.2. Most Important Symptoms/Effects, Acute and Delayed

General: Causes skin irritation. Causes serious eye irritation.

**Inhalation:** Prolonged exposure may cause irritation. Inhalation of fumes from overheating "TEFLON" PTFE may cause polymer fume fever, a temporary flu-like illness with fever, chills and sometimes cough, of approximately 24 hours duration.

Skin Contact: Redness, pain, swelling, itching, burning, dryness, and dermatitis.

Eye Contact: Contact causes severe irritation with redness and swelling of the conjunctiva.

Ingestion: Ingestion may cause adverse effects.

Chronic Symptoms: None expected under normal conditions of use.

05/11/2019 EN (English) End of SDS 3/11

<sup>\*</sup>Percentages are listed in weight by weight percentage (w/w%) for liquid and solid ingredients. Gas ingredients are listed in volume by volume percentage (v/v%)

# 4.3. Indication of Immediate Medical Attention and Special Treatment Needed, If Necessary

If exposed or concerned, get medical advice and attention. If medical advice is needed, have product container or label at hand.

#### **SECTION 5: FIRE-FIGHTING MEASURES**

# 5.1. Extinguishing Media

Suitable Extinguishing Media: Water spray, fog, carbon dioxide (CO<sub>2</sub>), alcohol-resistant foam, or dry chemical.

Unsuitable Extinguishing Media: Do not use a heavy water stream. Use of heavy stream of water may spread fire.

#### 5.2. Specific Hazards Arising From the Chemical

Fire Hazard: Not considered flammable but may burn at high temperatures.

**Explosion Hazard:** Product is not explosive.

Reactivity: Hazardous reactions will not occur under normal conditions.

Hazchem Code: Not allocated.

#### 5.3. Special Protective Actions for Fire-Fighters

 $\label{lem:precautionary Measures Fire:} \textbf{Exercise caution when fighting any chemical fire.}$ 

**Firefighting Instructions:** Use water spray or fog for cooling exposed containers.

Protection During Firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.

Hazardous Combustion Products: Carbon oxides (CO, CO<sub>2</sub>). Carbonyl fluoride. Carbon tetrafluoride. Fluorine compounds.

# SECTION 6: ACCIDENTAL RELEASE MEASURES

#### 6.1. Personal Precautions, Protective Equipment and Emergency Procedures

General Measures: Avoid breathing (vapour, mist, spray). Avoid all contact with skin, eyes, or clothing.

#### 6.1.1. For Non-Emergency Personnel

Protective Equipment: Use appropriate personal protective equipment (PPE).

**Emergency Procedures:** Evacuate unnecessary personnel.

#### 6.1.2. For Emergency Responders

Protective Equipment: Equip cleanup crew with proper protection.

**Emergency Procedures:** Upon arrival at the scene, a first responder is expected to recognize the presence of dangerous goods, protect oneself and the public, secure the area, and call for the assistance of trained personnel as soon as conditions permit. Ventilate area.

#### 6.2. Personal Precautions, Protective Equipment and Emergency Procedures

Prevent entry to sewers and public waters.

# 6.3. Methods and Materials for Containment and Cleaning Up

For Containment: Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.

**Methods for Cleaning Up:** Clean up spills immediately and dispose of waste safely. Transfer spilled material to a suitable container for disposal. Contact competent authorities after a spill.

#### 6.4. Reference to Other Sections

See Section 8 for exposure controls and personal protection and Section 13 for disposal considerations.

#### **SECTION 7: HANDLING AND STORAGE**

#### 7.1. Precautions for Safe Handling

Additional Hazards When Processed: Contains substances that are combustible dusts. If dried and allowed to accumulate, may form combustible dust concentrations in air that could ignite and cause an explosion. Take appropriate precautions. Inhalation of fumes from overheating "TEFLON" PTFE may cause polymer fume fever, a temporary flu-like illness with fever, chills and sometimes cough, of approximately 24 hours duration.

**Precautions for Safe Handling:** Avoid contact with skin, eyes and clothing. Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Avoid breathing vapour, mist, spray.

Hygiene Measures: Handle in accordance with good industrial hygiene and safety procedures.

# 7.2. Conditions for Safe Storage, Including Any Incompatibilities

**Technical Measures:** Comply with applicable regulations.

**Storage Conditions:** Keep container closed when not in use. Store in a dry, cool place. Keep/Store away from direct sunlight, extremely high or low temperatures and incompatible materials.

**Incompatible Materials:** Strong acids, strong bases, strong oxidisers.

05/11/2019 EN (English) End of SDS 4/11

#### SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1. Control Parameters

For substances listed in section 3 that are not listed here, there are no established Exposure limits from the manufacturer, supplier, importer, or the appropriate advisory agency including: ACGIH (TLV), AIHA (WEEL), UK HSE (WEL), Australia OELs, or New Zealand (WES)

Polyethylene glycol (25322-68-3)				
USA AIHA	WEEL TWA (mg/m³)	10 mg/m³ (molecular weight>200-aerosol)		
Cumene hydroperoxid	Cumene hydroperoxide (80-15-9)			
USA AIHA	WEEL TWA (ppm)	1 ppm		
USA AIHA	AIHA chemical category	Skin notation		
Titanium dioxide (1346	53-67-7)			
USA ACGIH	ACGIH TWA (mg/m³)	10 mg/m³		
USA ACGIH	ACGIH chemical category	Not Classifiable as a Human Carcinogen		
Australia	TWA (mg/m³)	10 mg/m³ (containing no asbestos and <1% crystalline silica-inhalable dust)		
New Zealand	TWA (mg/m³)	10 mg/m³		
United Kingdom	WEL TWA (mg/m³)	10 mg/m³ (total inhalable)		
		4 mg/m³ (respirable)		
United Kingdom	WEL STEL (mg/m³)	30 mg/m³ (calculated-total inhalable)		
		12 mg/m³ (calculated-respirable)		

#### 8.2. Monitoring

Monitoring Methods: A specific exposure sampling method is not available.

Specific Needed Monitoring: A specific exposure sampling method is not available.

**Biological Exposure Indices (Bei):** If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn. In case of inadequate ventilation, oxygen deficient atmosphere, or where exposure levels are not known wear approved respiratory protection.

# 8.3. Exposure Controls

**Appropriate Engineering Controls:** Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Ensure adequate ventilation, especially in confined areas. Ensure all national/local regulations are observed.

#### 8.4. Individual Protection Measures, Such as Personal Protective Equipment (PPE)

Personal Protective Equipment: Gloves. Protective clothing. Protective goggles.

Materials for Protective Clothing: Chemically resistant materials and fabrics.

Hand Protection: Wear protective gloves.

Eye and Face Protection: Chemical safety goggles.

**Skin and Body Protection:** Wear suitable protective clothing.

**Respiratory Protection:** If exposure limits are exceeded or irritation is experienced, approved respiratory protection should be worn. In case of inadequate ventilation, oxygen deficient atmosphere, or where exposure levels are not known wear approved respiratory protection.

Other Information: When using, do not eat, drink or smoke.

# **SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES**

#### 9.1. Information on Basic Physical and Chemical Properties

Physical State : Liquid

Appearance : Grainy Off-White Paste With Mild Odour

Odour : Mild

Odour Threshold : Not available

05/11/2019 EN (English) End of SDS 5/11

#### Safety Data Sheet

According to the Hazardous Substances and New Organisms Act (1996)

Not available рΗ **Evaporation Rate** Not available **Melting Point** Not available **Freezing Point** Not available **Boiling Point** Not available **Flash Point** > 230 °F (>110 °C) **Auto-ignition Temperature** Not available **Decomposition Temperature** Not available Flammability (solid, gas) Not applicable **Lower Flammable Limit** Not available **Upper Flammable Limit** Not available **Vapour Pressure** Not available Relative Vapour Density at 20°C Not available **Relative Density** Not available Density 1.3 g/ml **Specific Gravity** Not available Solubility Not available **Partition Coefficient: N-Octanol/Water** Not available Viscosity Not available

# **SECTION 10: STABILITY AND REACTIVITY**

- **10.1. Reactivity:** Hazardous reactions will not occur under normal conditions.
- **10.2.** Chemical Stability: Stable under recommended handling and storage conditions (see section 7).
- 10.3. Possibility of Hazardous Reactions: Hazardous polymerisation will not occur.
- **10.4. Conditions to Avoid:** Direct sunlight, extremely high or low temperatures, and incompatible materials.
- **10.5. Incompatible Materials:** Strong acids, strong bases, strong oxidisers.
- 10.6. Hazardous Decomposition Products: None expected under normal conditions of use.

#### SECTION 11: TOXICOLOGICAL INFORMATION

#### 11.1. Information on Toxicological Effects

**Likely Routes Of Exposure:** Dermal, Oral, Inhalation.

Acute Toxicity (Oral): Not classified (Based on available data, the classification criteria are not met).

Acute Toxicity (Dermal): Not classified (Based on available data, the classification criteria are not met).

Acute Toxicity (Inhalation): Not classified (Based on available data, the classification criteria are not met).

Skin Corrosion/Irritation: Causes skin irritation.

Eye Damage/Irritation: Causes serious eye irritation.

Respiratory or Skin Sensitization: Not classified (Based on available data, the classification criteria are not met).

Germ Cell Mutagenicity: Not classified (Based on available data, the classification criteria are not met).

Carcinogenicity: Not classified (Based on available data, the classification criteria are not met).

Specific Target Organ Toxicity (Repeated Exposure): Not classified (Based on available data, the classification criteria are not met).

Reproductive Toxicity: Not classified (Based on available data, the classification criteria are not met).

Specific Target Organ Toxicity (Single Exposure): Not classified (Based on available data, the classification criteria are not met).

Aspiration Hazard: Not classified (Based on available data, the classification criteria are not met).

**Symptoms/Injuries After Inhalation:** Prolonged exposure may cause irritation. Inhalation of fumes from overheating "TEFLON" PTFE may cause polymer fume fever, a temporary flu-like illness with fever, chills and sometimes cough, of approximately 24 hours duration.

Symptoms/Injuries After Skin Contact: Redness, pain, swelling, itching, burning, dryness, and dermatitis.

Symptoms/Injuries After Eye Contact: Contact causes severe irritation with redness and swelling of the conjunctiva.

**Symptoms/Injuries After Ingestion:** Ingestion may cause adverse effects.

Chronic Symptoms: None expected under normal conditions of use.

#### Safety Data Sheet

According to the Hazardous Substances and New Organisms Act (1996)

H341	Suspected of causing genetic defects.
H370	Causes damage to organs.
H401	Toxic to aquatic life
H411	Toxic to aquatic life with long lasting effects.
H422	Toxic to the soil environment
H432	Toxic to terrestrial vertebrates

#### Indication of Changes: No additional information available

#### **Abbreviations and Acronyms:**

ACGIH – American Conference of Governmental Industrial Hygienists

AIHA - American Industrial Hygiene Association

ATE - Acute Toxicity Estimate
BCF - Bioconcentration Factor
BEI - Biological Exposure Indices (BEI)
BOD – Biochemical Oxygen Demand
CAS No. - Chemical Abstracts Service Number

COD – Chemical Oxygen Demand EC50 - Median Effective Concentration EmS-No. (Fire) - IMDG Emergency Schedule Fire EmS-No. (Spillage) - IMDG Emergency Schedule Spillage ErC50 - EC50 in Terms of Reduction Growth Rate

ERG code (IATA) - Emergency Response Drill Code as found in the

International Civil Aviation Organization (ICAO)

GHS – Globally Harmonized System of Classification and Labeling of

Chemicals

GWP - Global Warming Potential

IARC - International Agency for Research on Cancer IATA - International Air Transport Association IBC – International Bulk Chemical Code IMDG - International Maritime Dangerous Goods

LC50 - Median Lethal Concentration

LD50 - Median Lethal Dose LOAEL - Lowest Observed Adverse Effect Level LOEC - Lowest-Observed-Effect Concentration

Log Koc - Soil Organic Carbon-water Partitioning Coefficient

Log Kow - Octanol/water Partition Coefficient

Log Pow - Ratio of the equilibrium concentration (C) of a dissolved substance in a two-phase system consisting of two largely immiscible

solvents, in this case octanol and water

MARPOL – International Convention for the Prevention of Pollution MFAG-No - Medical First Aid Guide for Use in Accidents Involving

**Dangerous Goods** 

NOAEL - No-Observed Adverse Effect Level NOEC - No-Observed Effect Concentration NTP – National Toxicology Program OEL - Occupational Exposure Limits

pH – Potential Hydrogen

SADT - Self Accelerating Decomposition Temperature

SADT - Self Accelerating I SDS - Safety Data Sheet

STEL - Short Term Exposure Limit STOT – Specific Target Organ Toxicity ThOD – Theoretical Oxygen Demand TLM - Median Tolerance Limit TLV - Threshold Limit Value

TWA - Time Weighted Average UK HSE – United Kingdom Health and Safety Executive

UN - United Nations

UN RTDG - United Nations Recommendations on the Transport of

**Dangerous Goods** 

VOC - Volatile Organic Compounds

WEEL - Workplace Environmental Exposure Levels

WEL – Workplace Exposure Limit
WES – Workplace Exposure Standards

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.
